

STUDENT PRESIDENT

Ashwath Page

To all my fellow students reading, I am Ashwath Page, and I am a Comic and Concept Artist.

In the past two years, I have been heavily involved with the Union and elections. From 2023-24, I was assigned the position of Events planner under the student execs. I had the opportunity to work under the student president and observe how she was able to command us and also maintain a sense of work relationship with the various members of the university and students alike.

This and my current experience with my role have allowed me to understand what is to be expected out of me and the shoes I must fill to enhance and maintain the long legacy of a student president, as I will be the voice of thousands and be the body that represents the University's youth. Hence why, I took my time developing my communication, leadership and time management skills as I understand this is a position like no other. It requires one to be highly polished and responsible, especially when it comes to time management and how they use their time and get the most out of their productivity while also being on time for everything.

I also have external experience through my two years of part-time jobs, both as a writer and hospitality staff, that has allowed me to understand better work ethics and how I could improve and polish myself as an employee and student before I knew I was ready to apply for this position.

As a Student president, it will be upon me and my leadership to guide the next generation of the governing body and ensure your voice is heard and that I can work with you to ensure you and everyone have the best academic year!
