Aim One: Performative Events

Although the union hosts a lot of amazing visual based exhibitions, I can't help but desire more performance nights. With 'Tuesday Live' (a fine art open mic night) being a key part of my student experience, I would love to open this event university wide. I feel there needs to be a better space for them to share the talents of our student body and for the entire student body to engage with this beautiful form of art.

Aim Two: Stronger Societies

Since being a Society Leader since 2022, I am an advocate for the importance of societies. I would love for there to be more opportunities for society leaders to get to know each other and open conversations for collaborations. I also want every society leader to know the union staff better and vice versa. Having regular society leader meetings would allow a space for the broader community of the union to integrate. On top of this since the university is physically expanding, the union should expand too! I want better outreach with the Leeds area. Whether this is through collaborative events with organisations or venues around the city. It can be very daunting as a society leader to reach out to external venues, so adopting connections will introduce students (new and old) to beautiful and interesting venues in and around the city.
